EMN History

Matej Lipovsek and Klaus von Wild have published "A brief history of the EMN". This excellent booklet was available at the Rome Meeting and will be distributed to all EMN Members. It is an outstanding history of the first dozen years of the EMN and describes all the meetings and proceedings of the Academy. There is also an excellent selection of photographs taken by our Honorary President Klaus von Wild. There is also a full list of all the Members of EMN with their addresses and telephone numbers (these can also be found at www.emn.cc).

12th EMN Congress in Rome a great success

The Twelfth EMN Congress in Rome was a great success. Thanks to the hard work and organisation of Franco Servadei and his team, we had an outstanding academic meeting in Rome in June. The scientific programme was very good with over 90 oral presentations and 34 posters. This represents a record in terms of academic productivity. The meeting was held on the banks of the Tiber River in an old Monastery with excellent lecture facilities and facilities for parallel sessions. The meeting was an opportunity for all the multidisciplinary members of the EMN to share academic exchanges and to get up to date in our different fields. Everybody left with a positive feeling of educational fulfilment and we were all greatly indebted to Franco Servadei for his work.
